

# Author roles: Portal

This documentation shows you the management options for author roles on the Portal tab.

Add an author role English (US) ▾

Title\*

**Properties** | **Structuring and modeling** | **Documentation** | **Portal** | **Quick Guides**

**Portal**

**Login**

Login to the TT Web Publisher

**Newsfeed**

Moderator

Create article on start page

**Analytics**

View dashboard

The Portal tab allows you to grant access to the WebAccess component. Furthermore, this is where you can also control the rights regarding the moderation of newsfeeds and the creation of articles on the start page ("Newsfeed" section of the Portal tab). Selecting the "View dashboard" checkbox gives the user the authorization to display the Dashboard.
